

Urovant Sciences Announces Collaboration with Sunovion Pharmaceuticals

June 18, 2020

IRVINE, Calif. & BASEL, Switzerland--(BUSINESS WIRE)--Jun. 18, 2020-- Urovant Sciences (Nasdaq: UROV) today announced it has entered into an exclusive three-year distribution agreement with Sunovion Pharmaceuticals Inc. (Sunovion) for services to support the commercialization of vibegron, an investigational agent for the treatment of overactive bladder. Both companies are subsidiaries of Sumitomo Dainippon Pharma Co., Ltd.

The co-promotion agreement will enable Urovant to leverage Sunovion's commercial infrastructure to increase efficiency of the planned launch of vibegron. The agreement covers services such as account management, contract operations, third party logistics, and trade and retail distribution.

"Our affiliation with Sunovion through the Sumitomo Dainippon Pharma family of companies allows us to capitalize on the expertise and scale of Sunovion's operational infrastructure," said Kenton Stewart, SVP of Market Access of Urovant Sciences. "Through our combined efforts, we will accelerate preparations for our anticipated launch of vibegron in the U.S. market."

"We are pleased to enter into this relationship with Urovant," said Thomas Gibbs, SVP and Chief Commercial Officer of Sunovion. "This agreement will enable Urovant to access Sunovion's well-established commercial capabilities as together we prepare for the launch of this important investigational medicine."

About Urovant Sciences

Urovant Sciences is a clinical-stage biopharmaceutical company focused on developing and commercializing innovative therapies for urologic conditions. The Company's lead product candidate, vibegron, is an oral, once-daily small molecule beta-3 agonist that is being evaluated for overactive bladder (OAB). Urovant Sciences reported positive data from the vibegron 12-week, phase 3 pivotal EMPOWUR study and demonstrated favorable longer-term efficacy, safety, and tolerability in a 40-week extension study. The Company submitted a New Drug Application to the FDA seeking approval of vibegron for the treatment of patients with OAB in December 2019. Vibegron is also being evaluated for treatment of OAB in men with benign prostatic hyperplasia (OAB+BPH) and for abdominal pain associated with irritable bowel syndrome (IBS). Urovant's second product candidate, URO-902, is a novel gene therapy being developed for patients with OAB who have failed oral pharmacologic therapy. Urovant Sciences, a subsidiary of Sumitomo Dainippon Pharma Co., Ltd., intends to develop novel treatments for additional urologic diseases. Learn more about us at www.urovant.com.

About Sunovion Pharmaceuticals Inc.

Sunovion is a global biopharmaceutical company focused on the innovative application of science and medicine to help people with serious medical conditions. Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include all statements that are not historical statements of fact and statements regarding the Company's intent, belief or expectations and can be identified by words such as "anticipate," "believe," "can," "continue," "could," "estimate," "expect," "intend," "likely," "may," "might," "objective," "ongoing," "plan," "potential," "predict," "project," "should," "strive," "to be," "will," "would," or the negative or plural of these words or other similar expressions or variations, although not all forward-looking statements contain these identifying words. In this press release, forward-looking statements include, but are not limited to, statements regarding Urovant's plans to advance the clinical development and seek U.S. FDA approval of vibegron in patients with OAB and statements regarding Sunovion Pharmaceuticals' ability to provide distribution, logistics, and other related services to Urovant. Forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially and reported results should not be considered as an indication of future performance. These risks and uncertainties include, but are not limited to, risks associated with: the

success, cost, and timing of Urovant's development activities, including the timing of the initiation and completion of clinical trials and the timing of expected regulatory filings; the clinical utility and potential attributes and benefits of vibegron, including reliance on collaboration partners and the ability to procure additional sources of financing; our intellectual property position, including the ability to identify and in-license or acquire third-party patents and licenses, and associated costs; and other risks and uncertainties listed in the Company's filings with the United States Securities and Exchange Commission (SEC), including under the heading "Risk Factors" in the Company's most recently filed Annual Report on Form 10-K and any subsequent Quarterly Reports on Form 10-Q filed with the SEC, as such risk factors may be amended, supplemented or superseded from time to time by other filings with the SEC. Given these risks and uncertainties, you should not place undue reliance on any forward-looking statements. These forward-looking statements are based on information available to Urovant as of the date of this press release and speak only as of the date of this release. Urovant disclaims any obligation to update these forward-looking statements, except as may be required by law.
